## SPRAYABLE SEAM SEALER GUN

Professional gun for applying Sprayable Seam Sealer. The gun is designed to accept both plastic and aluminum cartridges. The gun is hermetically sealed which avoids hardening of the product when not in use. The adjustments to air and product flow make it possible to duplicate OEM seams, as well as many other beads and patterns. By changing the spray cap, special extrusion nozzles can be attached for easy application of door skin seams and other beads.

- Nickel plated brass body
- Spray cap and extrusion cap included
- Stainless steel needle
- Product flow adjustment
- Air atomization adjustment

## SQUARE STATIC MIXERS

Introducing our new shorter square static mixers! Optimizing mix performance in a 20% shorter length than comparable square mixers, our new square static mixers allow the user to get even closer to their applications. Patent-pending design includes material flow path and wedge element improvements. This allows it to deliver improved mix quality in a significantly short length - the shortest of its kind in the marketplace. The shorter length allows users to dispense materials with greater control, resulting higher job quality.

Improved mixing in a shorter length!  
30% less retained volume resulting in reduced waste.  
Improved adhesive bond strength.
