

## #8080 EASY-SAND

### FILLER / SURFACER REPAIR COMPOUND

An easy sanding two-part epoxy adhesive, filler and surfacer designed for cosmetic repairs on most plastics, SMC, fiberglass, steel, aluminum and other materials. Use over top of repair compound to fill sander marks, low spots & other imperfections

**NOTE:** EASY-SAND was designed for cosmetic repairs on rigid and flexible parts, as an adhesive, filler and surfacer, in thin film amounts (skim coat). Use of EASY-SAND in thick layers will result in less flexibility.

Working time: 5 minutes approx.  
Sandable: 15 to 30 minutes  
Paintable: 10 minutes  
Cures: 6 to 8 hours

- 100% Solids
- 0% Shrink
- 0% VOC
- Quick Dry
- Superior Feathering
- Easy 1:1 Mix Ratio
- No special Tools

#### Directions:

1. Surface must be clean & dry. Use IES #1700 or #4700 Super Cleaning Solvent.
2. Squeeze equal beads of Part I & Part 2 on a mixing board. Parts must be equal.
3. Mix thoroughly to produce a uniform putty with no streaks.
4. Apply to a clean, sanded surface with spreader.
